About Apposite Technologies

Apposite Technologies helps engineers “close the loop”™ on performance with highly precise network test tools at reasonable prices. Apposite emphasizes ease-of-use so engineers spend time using the tools, not learning them. Apposite’s Linktropy 4500 link emulator simulates bandwidth, latency, loss, and other network characteristics to provide accurate network simulations for terrestrial, wireless, satellite, internet or any other type of wide-area network. Apposite Technologies – close the loop.
